INTRODUCTION

1. INTRODUCTION

Royal Decree-Law 13/2010, of December 3, has introduced an important modernization process, dividing the airport and air navigation management functions that in Spain had been performed by the Entidad Pública Empresarial Aena, with the objective of improving the efficiency and effectiveness of the Spanish airport system.

Aena Aeropuertos is created within this modernization process and it shall be responsible for the management of the airports which until now had been managed by Entidad Pública Empresarial Aena.

The Council of Ministers on June 3, 2011 approved an agreement which authorizes the asset transfer from Aena to Aena Aeropuertos and a rise in the capital stock of the new company. These measures are necessary for Aena Aeropuertos to start functioning effectively, from June 8, 2011.

Aena Aeropuertos shall carry out all the duties and obligations developed by Entidad Pública Empresarial Aena until June 7, 2011 as regards management and operation of airport services, and any others that national or international law gives to the airport operator, in relation to the network integrated by airports and heliports managed by Aena.

From July 5, 2014, Aena Aeropuertos S.A changes its name into Aena S.A. The airports and heliports that it manages are the following:
